

THE REDESIGNED CXT GANTRY CRANE

# An even better fit

# Make the most of your working area

Konecranes CXT gantry cranes are built for simplicity and maximum usability. With their specially designed steel structure, they are ideal for many types of buildings and work areas—both indoors and outdoors. A compact hoist makes the most of your existing workspace, providing an extensive work area around the crane.

Each hoist is fitted with our Core of Lifting components, developed and manufactured in-house, as well as a comprehensive set of control

and safety features and options for specific industrial lifting applications.

With the CXT gantry crane you can build your production in multiple layers. Single girder, semi and full gantries have a capacity up to 12.5 tons, a lifting height up to 10 meters and a span of up to 20 meters.

## COMMITTED TO SUSTAINABLE LIFTING SOLUTIONS

Konecranes is committed to providing sustainable lifting solutions and services while preventing and minimizing emissions and waste. Lifecycle thinking combined with usability, eco-efficiency and safety guide us in the design of our products and services. Our aim is to maximize the lifecycle value of our products.

# Maximize crane reliability and performance

You can maximize the lifecycle value of your CXT gantry crane with a Konecranes service program that is tailored to your requirements. A program of regular inspections and preventive plus predictive maintenance supports compliance and helps identify risks and opportunities for improvement.

We have the largest and most extensive service network in the industry giving you the advantage of local inspectors and technicians with access to a wealth of knowledge gained from servicing hundreds of thousands of assets of all makes and models in a wide range of industries.

**SPECS**

**Capacity:** up to 12.5 tons  
**Lifting heights:** up to 10m  
**Span:** up to 20m  
**Runway:** up to 120m

**FLEXIBLE STRUCTURE**

Helps prevent sticking during traveling movement.

**SAFETY LOOPS**

Designed to avoid collisions, helps protect people and equipment.

**RAIL CLEANERS**

Provide smooth crane movement.

**FLASHING BEACONS**

For both driving directions, provides extra layer of safety.

**E-STOPS**

According to crane dimensions.

**DERAILMENT CATCHES**

Used with semi gantry crane.

**COMPACT GANTRY GEAR**

Optional, with cover to save space.

Single girder semi gantry crane

# The power of data

Using TRUCONNECT Remote Monitoring on your CXT gantry crane gives you insights into crane condition, usage and operation that can help you make informed maintenance decisions. Remote Monitoring can also be added to your other cranes as a retrofit for a comprehensive fleet view.

When you have TRUCONNECT Remote Monitoring and/or a maintenance agreement with Konecranes you get access to the yourKONECRANES customer portal. The portal lets you quickly and easily see

your crane maintenance information, asset condition and usage data, as well as an overview of findings in your fleet.

The data on yourKONECRANES can be viewed, analyzed and shared quickly helping you make informed maintenance decisions. TRUCONNECT safety alerts and condition status is available any time, any place and the information can help you act quickly on potential safety issues and plan your maintenance with minimal disturbance to production.

TRUCONNECT data on yourKONECRANES customer portal

**Konecranes is a world-leading group of Lifting Businesses, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Konecranes provides productivity enhancing lifting solutions as well as services for lifting equipment of all makes. In 2022, Group sales totaled EUR 3.4 billion. The Group has approximately 16,500 employees in around 50 countries. Konecranes shares are listed on the Nasdaq Helsinki (symbol: KCR).**
